# **COVID-19 Data Report**

Data through September 12, 2021

Updated September 13, 2021

Update Schedule: Every Monday, Wednesday and Friday (excluding holidays) by 3pm

Report produced by: San Joaquin County, Public Health Services, Epidemiology

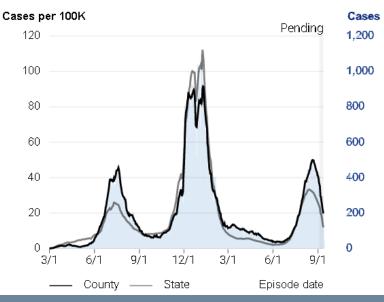

### **Total Number of Cases and Deaths**

### **Total Cases**

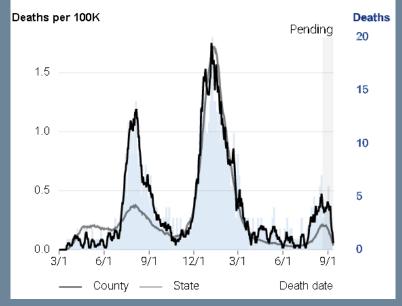

**90,730 total confirmed cases 248** new cases (0.3% increase)

**35.0** cases per 100K (7-day average)

### **Total Deaths**

**1,581 total confirmed deaths0** new deaths (0% increase)**0.3** deaths per 100K (7-day average)

Note: Case rate is based on a 7-day average with a 7-day lag. Rates of deaths is based on a 7-day average with a 21-day lag due to delays in reporting. Directional change is compared to the prior 7-day period Data is provided by the California Department of Public Health. The total number of cases and deaths noted here is since the beginning of the pandemic on March 1, 2020. Source: <u>https://covid19.ca.gov/state-dashboard/</u>

## Cases and Deaths by Jurisdiction

| Jurisdiction   | Case Total | New Cases | Death Total | New Deaths | Case Rate per 10K (Total) |
|----------------|------------|-----------|-------------|------------|---------------------------|
| Unincorporated | 16,035     | 157       | 250         | 1          | 951.8                     |
| Escalon        | 936        | 5         | 13          | 0          | 1,251.7                   |
| Lathrop        | 3,012      | 20        | 25          | 0          | 1,122.5                   |
| Lodi           | 7,950      | 106       | 186         | 2          | 1,170.3                   |
| Manteca        | 8,938      | 94        | 128         | 1          | 1,054.0                   |
| Ripon          | 1,779      | 16        | 25          | 0          | 1,116.8                   |
| Stockton       | 38,899     | 368       | 820         | 2          | 1,221.2                   |
| Tracy          | 9,654      | 77        | 97          | 2          | 1,006.3                   |

Note: New cases and deaths are new reports that were received since the last update. The total number of cases and deaths noted here is since the beginning of the pandemic on March 1, 2020.

## Cases and Deaths by ZIP Code (1 of 2)

| Zip Code | Case Count | New Cases | Death Count | New Deaths | Case Rate per 10K (Total) |
|----------|------------|-----------|-------------|------------|---------------------------|
| 95202    | 792        | 9         | 34          | 0          | 1,094.4                   |
| 95203    | 2,052      | 23        | 40          | 0          | 1,161.6                   |
| 95204    | 3,626      | 38        | 91          | 0          | 1,144.8                   |
| 95205    | 5,392      | 60        | 118         | 0          | 1,255.9                   |
| 95206    | 9,416      | 71        | 157         | 1          | 1,284.5                   |
| 95207    | 6,257      | 74        | 165         | 0          | 1,178.4                   |
| 95209    | 5,346      | 51        | 103         | 1          | 1,194.4                   |
| 95210    | 5,145      | 45        | 116         | 0          | 1,161.7                   |
| 95211    | 8          | 0         | 0           | 0          | 34.6                      |
| 95212    | 3,454      | 28        | 46          | 0          | 1,214.2                   |
| 95215    | 3,002      | 30        | 54          | 0          | 1,132.7                   |
| 95219    | 2,727      | 23        | 42          | 0          | 864.3                     |
| 95220    | 662        | 8         | 12          | 0          | 823.2                     |
| 95227    | 69         | 0         | 1           | 0          | 612.8                     |
| 95230    | 40         | 1         | 0           | 0          | 761.9                     |
| 95231    | 549        | 2         | 13          | 1          | 1,109.1                   |
| 95234    | 0          | 0         | 0           | 0          | 0.0                       |
| 95236    | 433        | 1         | 7           | 0          | 897.8                     |
| 95237    | 362        | 0         | 6           | 0          | 1,019.7                   |

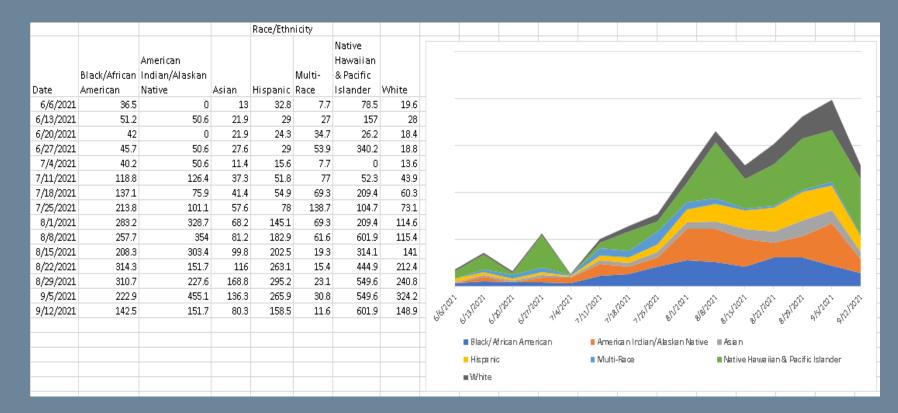

*Note:* New cases and deaths are new reports that were received since the last update. The total number of cases and deaths noted here is since the beginning of the pandemic on March 1, 2020.

### Cases and Deaths by ZIP Code (2 of 2)

| Zip Code | Case Count | New Cases | Death Count | New Deaths | Case Rate per 10K (Total) |
|----------|------------|-----------|-------------|------------|---------------------------|
| 95240    | 6,303      | 83        | 168         | 2          | 1,182.8                   |
| 95242    | 2,686      | 35        | 41          | 0          | 935.0                     |
| 95253    | 0          | 0         | 0           | 0          | 0.0                       |
| 95254    | 0          | 0         | 0           | 0          | 0.0                       |
| 95258    | 459        | 10        | 8           | 0          | 1,095.7                   |
| 95304    | 1,436      | 5         | 6           | 0          | 830.7                     |
| 95320    | 1,463      | 10        | 19          | 0          | 1,025.4                   |
| 95330    | 3,047      | 20        | 26          | 0          | 1,509.2                   |
| 95336    | 4,966      | 58        | 88          | 0          | 1,032.6                   |
| 95337    | 4,643      | 53        | 52          | 1          | 1,302.9                   |
| 95361    | 25         | 0         | 2           | 0          | 411.2                     |
| 95366    | 2,018      | 18        | 26          | 0          | 1,084.4                   |
| 95367    | 2          | 0         | 0           | 0          | 606.1                     |
| 95376    | 6,035      | 55        | 77          | 2          | 1,066.2                   |
| 95377    | 3,343      | 22        | 19          | 0          | 956.3                     |
| 95391    | 1,241      | 9         | 5           | 0          | 528.0                     |
| 95632    | 97         | 1         | 0           | 0          | 655.4                     |
| 95686    | 107        | 0         | 2           | 0          | 703.5                     |

Note: New cases and deaths are new reports that were received since the last update. The total number of cases and deaths noted here is since the beginning of the pandemic on March 1, 2020.

### Case Rate Over Time by Race/Ethnicity

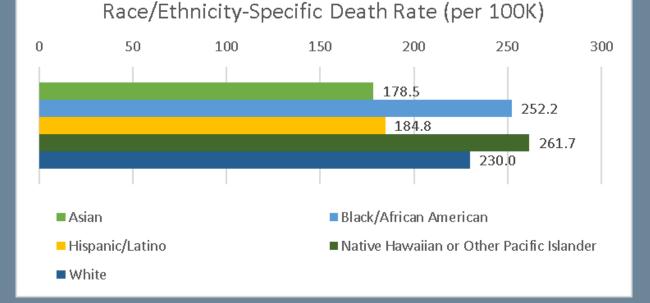

Notes: 7-day case rate (episode date with no lag). This stacked area shows the magnitude of change over time and to draw attention to total cases over time. American Indian/Alaskan Native and Native Hawaiian/Other Pacific Islander are now included in the graph, which has affected the color legend. Additionally, these race/ethnicity populations have unstable rates so use caution when interpreting their results.

- In August, there was an increase in case rate among our most prominent race/ethnicity populations within our County. (i.e. White, Hispanic)
- Since the beginning of September there appears to be a decrease in the case rate, however we are still monitoring incoming data after the Labor day weekend.

## Deaths by Race/Ethnicity

| Race/Ethnicity                   | % Pop | Total Deaths | % Deaths |
|----------------------------------|-------|--------------|----------|
| Asian                            | 15.7  | 220          | 13.9     |
| Black/African American           | 7.0   | 138          | 8.7      |
| Hispanic/Latino                  | 40.9  | 592          | 37.3     |
| Native Hawaiian or Other Pacific |       |              |          |
| Islander                         | 0.5   | 10           | 0.6      |
| White                            | 32.0  | 576          | 36.3     |

Note: The total number of deaths noted here is since the beginning of the pandemic on March 1, 2020. The Native Hawaiian or Other Pacific Islander population has an unstable rate so use caution when interpreting their results.

# Case Rate Over Time by Age Group

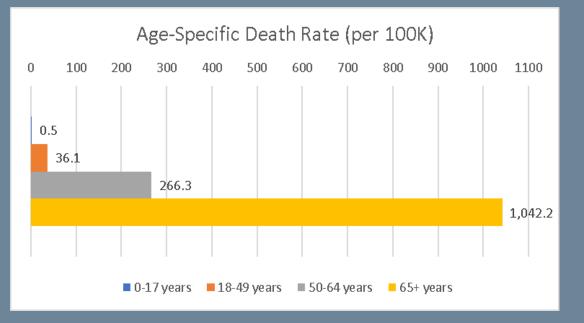

|           |       |       |       |       | Age Group |       |       |       |       |       |
|-----------|-------|-------|-------|-------|-----------|-------|-------|-------|-------|-------|
| Date      | 0-4   | 5-17  | 18-34 | 35-49 | 50-59     | 60-64 | 65-69 | 70-74 | 75-79 | 80+   |
| 6/6/2021  | 18.7  | 21.8  | 47.5  | 42.9  | 33.3      | 35.1  | 20.4  | 18.3  | 15.5  | 28.5  |
| 6/13/2021 | 4.2   | 25.9  | 59.4  | 58.9  | 33.3      | 35.1  | 29.2  | 32.9  | 31.1  | 61.1  |
| 6/20/2021 | 8.3   | 18.4  | 48.5  | 41.5  | 23.6      | 32.7  | 26.3  | 11    | 10.4  | 32.6  |
| 6/27/2021 | 22.9  | 34.1  | 45.5  | 46.4  | 27.9      | 39.7  | 32.1  | 32.9  | 31.1  | 44.8  |
| 7/4/2021  | 14.6  | 10.9  | 33.7  | 25.6  | 29        | 14    | 11.7  | 11    | 31.1  | 16.3  |
| 7/11/2021 | 35.3  | 55.2  | 100.5 | 80.3  | 69.8      | 44.4  | 73    | 54.9  | 46.6  | 52.9  |
| 7/18/2021 | 56.1  | 53.9  | 111.9 | 108.7 | 77.3      | 72.5  | 38    | 62.2  | 31.1  | 61.1  |
| 7/25/2021 |       | 91.4  | 163.4 | 155.8 | 106.3     |       |       | 51.2  | 56.9  |       |
| 8/1/2021  |       |       |       |       |           |       |       |       | 72.5  |       |
| 8/8/2021  |       |       |       |       |           | 112.2 |       | 113.5 | 56.9  |       |
| 8/15/2021 |       |       |       |       |           | 198.7 | 122.6 | 120.8 | 77.6  |       |
| 8/22/2021 |       |       |       |       |           | 180   |       | 142.7 | 93.2  |       |
| 8/29/2021 |       |       |       |       |           |       |       | 252.5 | 227.8 |       |
| 9/5/2021  |       |       |       |       |           | 268.9 |       | 186.7 | 134.6 |       |
| 9/12/2021 | 151.8 | 197.7 | 225.3 | 274.2 | 194.3     | 175.4 | 140.2 | 128.1 | 150.1 | 162.9 |
|           |       |       |       |       |           |       |       |       |       |       |
|           |       |       |       |       |           |       |       |       |       |       |
|           |       |       |       |       |           |       |       |       |       |       |
|           |       |       |       |       |           |       |       |       |       |       |
|           |       |       |       |       |           |       |       |       |       |       |
|           |       |       |       |       |           |       |       |       |       |       |
|           |       |       |       |       |           |       |       |       |       |       |
|           |       |       |       |       |           |       |       |       |       |       |

Note: 7-day case rate (episode date with no lag). This stacked area shows the magnitude of change over time and to draw attention to total cases over time.

- In August, there was a dramatic increase in case rate for 5-17-year-olds within our County.
- Since the beginning of September, there appears to be a decrease in case rate amongst most age groups.

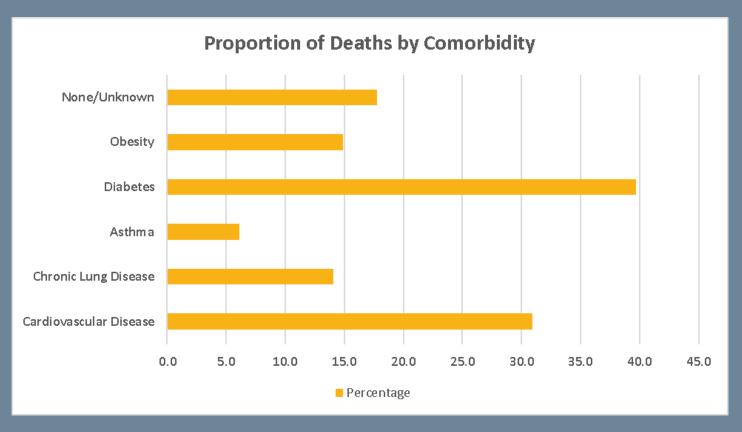

## Deaths by Age Group

| Age Group   | % Pop | Total Deaths | % Deaths |
|-------------|-------|--------------|----------|
| 0-17 years  | 24.9  | 1            | 0.1      |
| 18-49 years | 44.3  | 125          | 7.9      |
| 50-64 years | 17.4  | 362          | 22.8     |
| 65+ years   | 13.5  | 1099         | 69.3     |

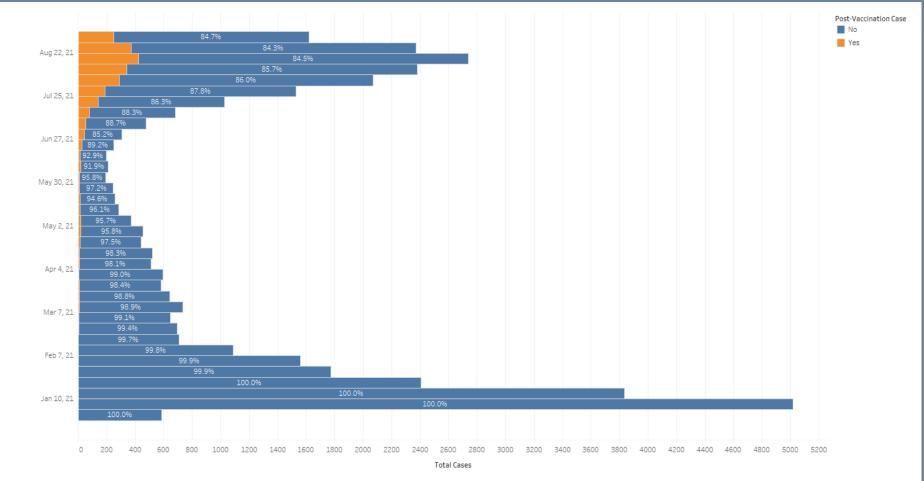

Note: The total number of deaths noted here is since the beginning of the pandemic on March 1, 2020.

# Deaths by Comorbidities

Note: Will not total 100%. Cases may have more than one comorbidity.

## Weekly Cases by Vaccination Status

The plot of Total Cases for Episode Date Week. Color shows details about Post-Vaccination Case. The marks are labeled by % of Total Cases. The data is filtered on Episode Date Year, which keeps 2021.

\*\*Additional information has been received from CDPH concerning limitations of the data source\*\*

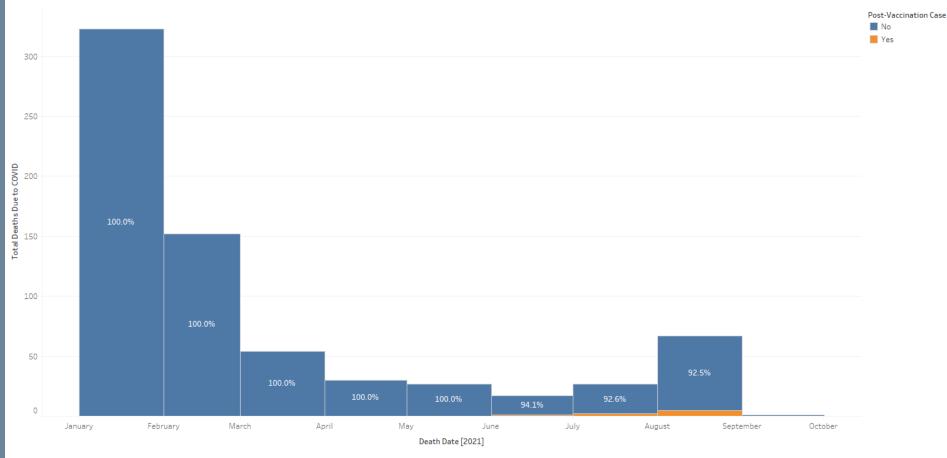

Date [2021]

ode

Note: Post-Vaccination Case Status determined by probabilistic matching of the immunization registry and case data, performed by the California Department of Public Health. Per the data provided by CDPH, the blue includes unvaccinated and partially vaccinated cases. Data through September 4, 2021. Updated every Friday.

- Since Mid-June there has been an increase in COVID-19 cases that are fully vaccinated.
- 0.67% of our County's fully vaccinated population are breakthrough cases. (This is not depicted in the graph above)

### Monthly COVID-19 Related Deaths by Vaccination Status

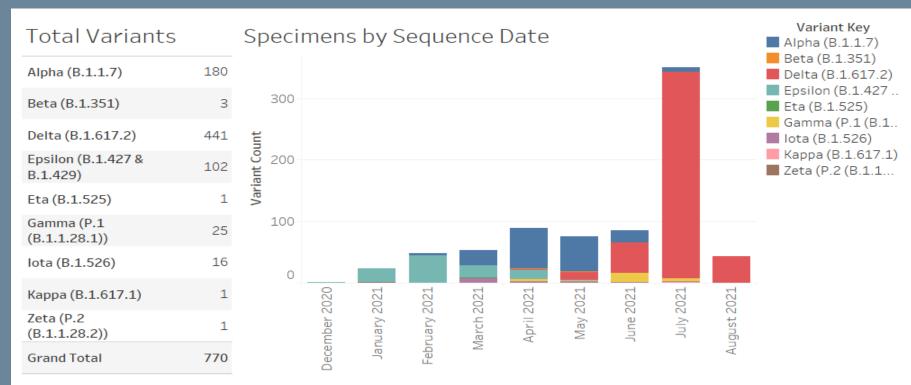

The plot of Total Deaths Due to COVID for Date of Death Month. Color shows details about Post-Vaccination Case. The marks are labeled by % of Total Deaths Due to COVID. The data is filtered on Death Status, Date of Death Year, and COVID Death Status. The Death Status filter keeps Yes. The Date of Death Year filter keeps 2021. The COVID Death Status filter keeps Yes.

\*\*Additional information has been received from CDPH concerning limitations of the data source\*\*

Note: Post-Vaccination Case Status determined by probabilistic matching of the immunization registry and case data, performed by the California Department of Public Health. Per the data provided by CDPH, the blue includes unvaccinated and partially vaccinated cases. Data through September 4, 2021. Updated every Friday.

#### • Less than 8% of the COVID-19 related deaths in August were Fully Vaccinated San Joaquin County residents.

# Variants of Interest/Concern

#### Variant Count By Type and Month

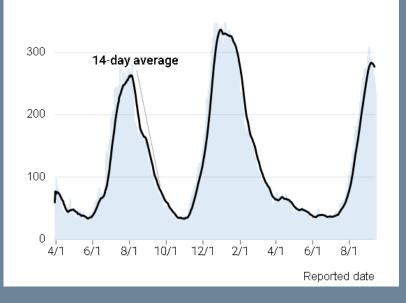

|                        | Decemb J | anuary I | Februar | March | April 20 | May 20 | June 20 | July 20 | August |
|------------------------|----------|----------|---------|-------|----------|--------|---------|---------|--------|
| Alpha (B.1.1.7)        |          |          | 4       | 25    | 65       | 58     | 20      | 8       |        |
| Beta (B.1.351)         |          |          |         |       | 2        | 1      |         |         |        |
| Delta (B.1.617.2)      |          |          |         |       | 1        | 12     | 50      | 335     | 43     |
| Epsilon (B.1.427 & B   | 1        | 22       | 44      | 19    | 15       | 1      |         |         |        |
| Eta (B.1.525)          |          |          |         | 1     |          |        |         |         |        |
| Gamma (P.1 (B.1.1.2.   |          |          |         |       | 3        | 2      | 15      | 5       |        |
| lota (B.1.526)         |          |          |         | 8     | 3        | 2      | 1       | 2       |        |
| Kappa (B.1.617.1)      |          |          |         |       |          |        |         | 1       |        |
| Zeta (P.2 (B.1.1.28.2. |          | 1        |         |       |          |        |         |         |        |
| Grand Total            | 1        | 23       | 48      | 53    | 89       | 76     | 86      | 351     | 43     |

## **Total Hospitalizations and ICU Beds**

### **Total Hospitalizations**

#### 237 COVID-19 hospitalized patients

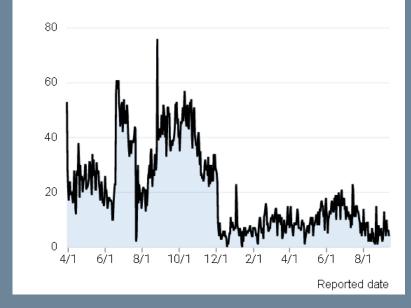

13 fewer patients hospitalized from prior day total (5.2% decrease)

### **ICU Beds Available**

#### 4 ICU beds available

2 fewer ICU beds available from prior day total (33.3% decrease)

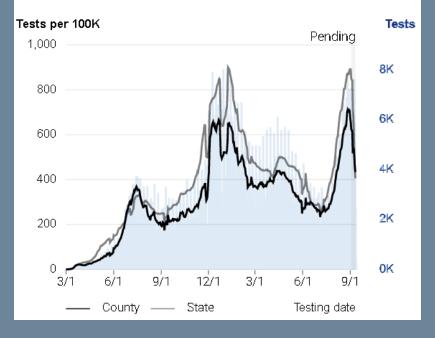

Note: Includes the number of licensed ICU beds and hospitalized patients in San Joaquin County, regardless of residency. Licensed ICU bed totals count the number of beds that can be staffed to provide intensive healthcare. Directional change is compared to the prior day. Data is provided by the California Department of Public Health. The total number is since the beginning of the pandemic on March 1, 2020.Source: https://covid19.ca.gov/state-dashboard/

### **Testing and Positivity Rate**

### **Tests Performed**

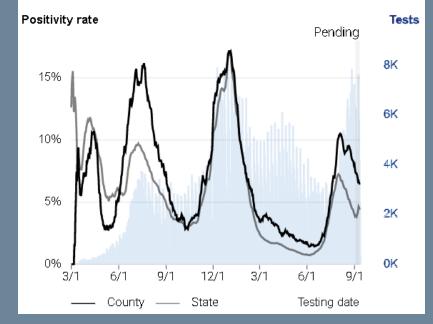

#### 1,350,383 total tests performed

5,089 new tests reported (0.4% increase)

### **Positivity Rate**

**6.4% test positivity (7-day rate) 0.9%** decrease from 7-days prior

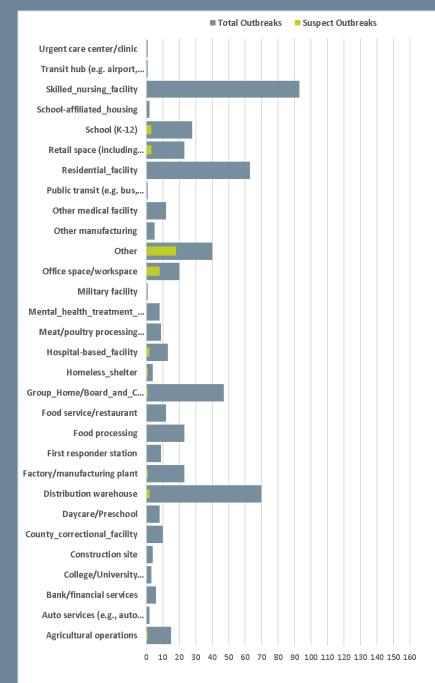

Note: Testing date is the date the test was administered. Test positivity is based on a 7-day average with no lag. Directional change is compared to the prior 7-day period. Data is provided by the California Department of Public Health. The total number is since the beginning of the pandemic on March 1, 2020. Source: <u>https://covid19.ca.gov/state-dashboard/</u>

## Outbreaks by Industry

- Suspect outbreaks are outbreaks that have been reported to PHS since July '21 and are currently under investigation to determine whether the report constitutes a confirmed outbreak.
  - Suspect outbreak numbers can vary over time as information is verified.
- The same site can have multiple suspected outbreaks occurring at the same time.
- Total outbreaks are outbreaks that have been confirmed since the beginning of the pandemic, March 1, 2020.

(refer to Definitions - Outbreaks for more info)

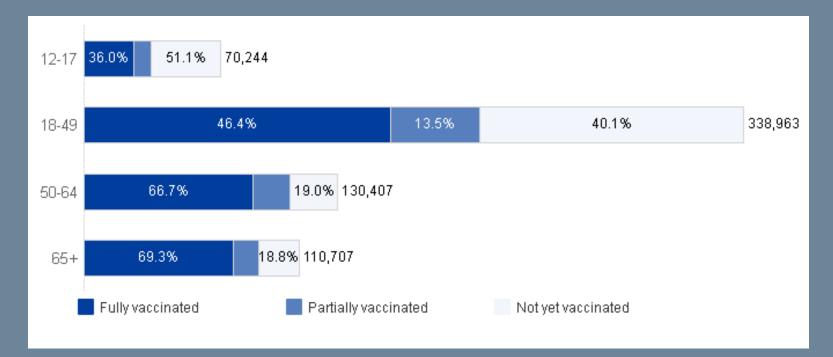

# Vaccinations by Jurisdiction

| Jurisdiction   | Population | Total Vaccinations | Fully Vaccinated | % Fully Vaccinated | Partially Vaccinated | % Partially Vaccinated |
|----------------|------------|--------------------|------------------|--------------------|----------------------|------------------------|
| Unincorporated | 166,467    | 25,709             | 22,255           | 13.4               | 3,454                | 2.1                    |
| Escalon        | 6,104      | 5,908              | 5,180            | 84.9               | 728                  | 11.9                   |
| Lathrop        | 18,226     | 16,598             | 14,559           | 79.9               | 2,039                | 11.2                   |
| Lodi           | 53,933     | 40,218             | 34,431           | 63.8               | 5,787                | 10.7                   |
| Manteca        | 65,240     | 51,028             | 44,552           | 68.3               | 6,476                | 9.9                    |
| Ripon          | 13,094     | 9,197              | 8,118            | 62.0               | 1,079                | 8.2                    |
| Stockton       | 252,326    | 198,726            | 166,664          | 66.1               | 32,062               | 12.7                   |
| Тгасу          | 74,931     | 67,506             | 59,088           | 78.9               | 8,418                | 11.2                   |
| Unknown        | n/a        | 1,318              | 860              | n/a                | 458                  | n/a                    |
| Total          | 650,321    | 416,208            | 355,707          | 54.7               | 60,501               | 9.3                    |

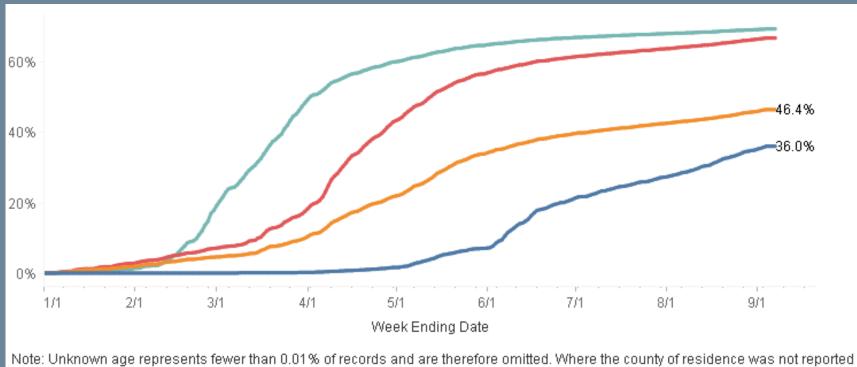

Note: Population estimates have been updated to 2021 DoF projections to be more consistent with State reporting. Population estimates are for individuals 12 years and older.

## Vaccination Progress by Age Group

*Note: Vaccination breakdowns are updated every Wednesday. Source:* <u>https://covid19.ca.gov/vaccination-progress-data/#equitably-across-groups</u>

### Fully Vaccinated Over Time by Age Group

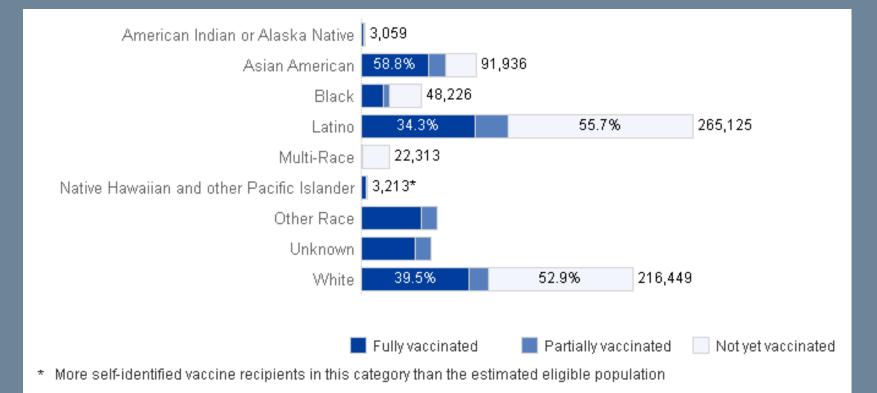

the county where vaccinated is used. Data is not shown where there are fewer than 11 records in a group.

🔜 12-17 🛛 🔜 18-49 💭 50-64 📃 65+

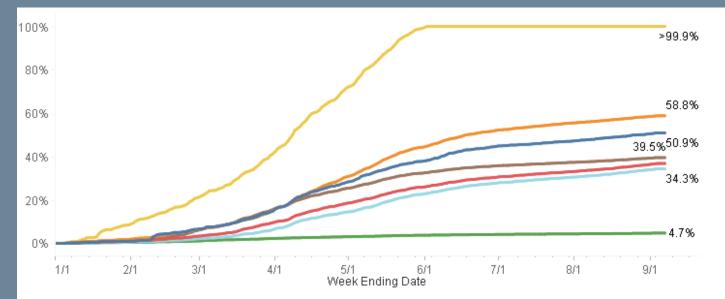

*Note: Vaccination breakdowns are updated every Wednesday. Source:* <u>https://covid19.ca.gov/vaccination-progress-data/#equitably-across-groups</u>

### Vaccination Progress by Race/Ethnicity

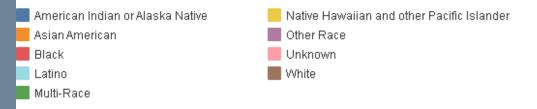

*Note: Vaccination breakdowns are updated every Wednesday. Source:* <u>https://covid19.ca.gov/vaccination-progress-data/#equitably-across-groups</u>

### Fully Vaccinated Over Time by Race/Ethnicity

Note: Population estimates do not include "other" or "unknown" race and ethnicity categories, therefore their percentage of state population is not available. Some race/ethnicity groups in this county may have small populations. Where the county of residence was no reported, the county where vaccinated is used. Data is not shown where there are fewer than 11 records in a group.

### Definitions – Cases, Deaths, and Positivity Rate

#### • Cases:

- <u>Confirmed</u>: Detection of SARS-CoV-2 RNA in a clinical specimen (swab) using a molecular amplification detection test (PCR).
  - A patient is counted only once if they have multiple positive tests.
- Not Counted: Antigen or antibody tests.
- Episode date is the estimated earliest date of the case's illness.
- Deaths:
  - COVID-19 is listed as the leading cause of death or significant condition on the death certificate as per CDPH's definition. May be removed from the total once the final ICD-10 code is received.
  - There is a substantial delay in receiving notification of deaths. Totals by week will change as PHS receives information.
- Positivity Rate:
  - Positivity rate is calculated as the number of positive molecular tests divided by the total molecular tests performed.

### **Definitions - Outbreaks**

#### • Health Care Facilities:

- Acute Hospital Facilities:
  - Patients: At least two lab confirmed COVID-19 in patients 7 days after admission for a non-COVID condition in which: (a) have a common source (i.e., unit and/or healthcare provider), (b) are not contacts to one another outside the facility, (c) are from different households.
  - Health Care Providers: 2-3 lab confirmed cases within two weeks in which (a) have a common source (i.e., unit), (b) are not contacts to one another outside the facility, (c) are from different households.
- Long-Term Care Facilities: At least one lab confirmed COVID-19 in a resident, that was acquired in the facility.

For more detailed information, refer to https://www.cdph.ca.gov/Programs/CHCQ/LCP/Pages/AFL-20-75.aspx

#### • Non-Health Care Facilities:

- <u>Residential Congregate Settings (non-healthcare)</u>: At least three probable or confirmed cases (residents and/ or employees) within two weeks in which: (a) have common source and (b) are not identified as contacts to each other in any other case investigation.
  - Examples include dormitories, group homes, jails, prisons, shelters.
- <u>Non-Residential Congregate Settings (non-healthcare)</u>: At least three probable or confirmed cases within two weeks in which: (a) have a common source, (b) are from different households, (c) are not identified as contacts to each other in any other case investigation.
  - Examples include workplaces, childcare facilities, schools, weddings, churches.

For more detailed information, refer to <u>https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-</u>19/OutbreakDefinitionandReportingGuidance.aspx

### Disclaimers

- Data are preliminary and subject to change as information is verified. Numbers do not represent true dayover-day changes as these results include cases from prior days. This information may not match other state websites due to differences in when the data was pulled, and the data sources used.
- Case/Death Counts by Jurisdiction and ZIP Code are processed through geocoding software to determine if they are found within the City Limits or ZIP Code boundaries. Cases without a known address, cases that are homeless, and cases with street addresses that cannot be accurately located are not included in the Case/Death Counts but are included in the County total.
- <u>Variant cases</u>: Do not represent the total number of variant infections. Positive COVID-19 samples are randomly selected and tested by CDPH and other labs. San Joaquin County Public Health Services does not control any aspect of the sampling completed by CDPH or other labs.
- <u>Vaccinations</u>: Population estimates are for individuals 12 years and older. The reporting of vaccine administration data into the immunization registries is consistently an under-count of actual number of doses administered locally, due to incomplete and delayed reporting into these systems. Providers that receive the vaccine are responsible for entering information into an immunization registry (Healthy Futures or CAIR2). Vaccine administration data is extracted from these registries. Administered doses are not counted if there is uncertainty regarding the county of residence. If the patient's address is missing, their administration site (i.e., Dameron) will be used as a proxy. May not include the following vaccinations of San Joaquin Residents: Individuals vaccinated but are not reported in California Immunization Registries or vaccinated at Federal facilities (VA, Prisons, Skilled Nursing Facilities).
- For ">99.9%" values: These values should be interpreted with caution as they may result from numeratordenominator mismatches for the following reasons: 1) Population projections are estimates and thus have a margin of error; this error can result in >99.9% values particularly for small populations. 2) Individuals identifying with race/ethnic groups outside of Federal Office of Management and Budget (OMB) classifications may cause those groups to exceed 99.9% (e.g. Asian ethnicities identifying as NHPI). 3) Metrics for small populations may be disproportionately affected by geocoding errors or non-resident individuals.
