

COVID-19 Data Report

Data through October 24, 2021

Updated October 25, 2021

Update Schedule: Every Monday, Wednesday and Friday (excluding holidays) by 3pm

Total Number of Cases and Deaths

Total Cases

- Total Number of Cases: 99,048
- Total New Cases Since Previous Report: 430

15.0 cases per 100K (7-day average)

Total Deaths

- Total Number of COVID-19 Related Deaths: 1,745
- Total New Deaths Since Previous Report: 14

0.2 deaths per 100K (7-day average)

Note: Case and Death Totals presented without lag. Case rate is based on a 7-day average with a 7-day lag. Rates of deaths is based on a 7-day average with a 21-day lag due to delays in receiving death certificates. Directional change is compared to the prior 7-day period. Data is provided by the California Department of Public Health. The total number of cases and deaths noted here is since the beginning of the pandemic on March 1, 2020. Total new cases and new deaths are the difference between the updated weekly report and the previous report. Source: <https://covid19.ca.gov/state-dashboard/>

*Update Note: Due to weather-related issues, CDPH has not yet updated their data. This report has been updated with data from Sunday, October 24th, 2021.

Cases and Deaths by Jurisdiction

Jurisdiction	Case Total	New Cases	Death Total	New Deaths	Case Rate per 10K (Total)
Unincorporated	17,290	99	291	5	1,026.3
Escalon	1,021	12	17	0	1,365.3
Lathrop	3,196	12	28	0	1,191.1
Lodi	8,511	27	196	3	1,252.9
Manteca	9,614	43	149	1	1,133.7
Ripon	1,926	19	29	0	1,209.0
Stockton	41,557	150	875	4	1,304.7
Tracy	10,403	46	108	1	1,084.4

Note: New cases and deaths are new reports that were received since the last update. The total number of cases and deaths noted here is since the beginning of the pandemic on March 1, 2020.

Cases and Deaths by ZIP Code (1 of 2)

Zip Code	Case Count	New Cases	Death Count	New Deaths	Case Rate per 10K (Total)
95202	867	2	37	0	1,198.0
95203	2,196	11	41	0	1,243.1
95204	3,876	19	99	1	1,223.8
95205	5,824	34	130	1	1,356.5
95206	10,007	24	177	2	1,365.2
95207	6,721	33	172	1	1,265.8
95209	5,762	17	109	0	1,287.3
95210	5,481	14	118	0	1,237.6
95211	8	0	0	0	34.6
95212	3,669	13	54	1	1,289.8
95215	3,195	25	62	1	1,205.6
95219	2,913	6	46	0	923.2
95220	714	3	13	0	887.8
95227	72	1	1	0	639.4
95230	42	0	0	0	800.0
95231	597	2	16	0	1,206.1
95234	0	0	0	0	0.0
95236	485	9	7	0	1,005.6
95237	385	0	6	0	1,084.5

Note: New cases and deaths are new reports that were received since the last update. The total number of cases and deaths noted here is since the beginning of the pandemic on March 1, 2020.

Cases and Deaths by ZIP Code (2 of 2)

Zip Code	Case Count	New Cases	Death Count	New Deaths	Case Rate per 10K (Total)
95240	6,724	18	177	1	1,261.8
95242	2,897	9	45	3	1,008.5
95253	0	0	0	0	0.0
95254	0	0	0	0	0.0
95258	489	3	9	0	1,167.3
95304	1,529	14	12	1	884.5
95320	1,603	20	23	0	1,123.6
95330	3,231	12	29	0	1,600.3
95336	5,331	28	103	1	1,108.5
95337	5,028	22	61	0	1,410.9
95361	40	1	2	0	657.9
95366	2,178	22	30	0	1,170.3
95367	2	0	0	0	606.1
95376	6,506	27	86	1	1,149.4
95377	3,592	14	20	0	1,027.5
95391	1,335	5	6	0	568.0
95632	103	0	0	0	695.9
95686	116	0	2	0	762.7

Note: New cases and deaths are new reports that were received since the last update. The total number of cases and deaths noted here is since the beginning of the pandemic on March 1, 2020.

Case Rate Over Time by Race/Ethnicity

Notes: 7-day case rate (episode date with no lag). This stacked area shows the magnitude of change over time and to draw attention to total cases over time. American Indian/Alaskan Native and Native Hawaiian/Other Pacific Islander are now included in the graph, which has affected the color legend. Additionally, these race/ethnicity populations have unstable rates so use caution when interpreting their results.

- In August, there was an increase in case rate among our most prominent race/ethnicity populations within our County. (i.e. White, Hispanic)
- Since the beginning of September there appears to be a decrease in the case rate among most race/ethnicity populations within our county.

Deaths by Race/Ethnicity

Race/Ethnicity	% Pop	Total Deaths	% Deaths
Asian	15.7	234	13.4
Black/African American	7.0	147	8.4
Hispanic/Latino	40.9	654	37.5
Native Hawaiian or Other Pacific Islander	0.5	13	0.7
White	32.0	639	36.6

Note: The total number of deaths noted here is since the beginning of the pandemic on March 1, 2020. The Native Hawaiian or Other Pacific Islander population has an unstable rate so use caution when interpreting their results.

Case Rate Over Time by Age Group

Note: 7-day case rate (episode date with no lag). This stacked area shows the magnitude of change over time and to draw attention to total cases over time.

- In August, there was a dramatic increase in case rate for 5-17-year-olds within our County.
- Since the beginning of September, there appears to be a decrease in case rate among most age groups.

Deaths by Age Group

Age Group	% Pop	Total Deaths	% Deaths
0-17 years	24.9	1	0.1
18-49 years	44.3	151	8.7
50-64 years	17.4	413	23.7
65+ years	13.5	1180	67.6

Note: The total number of deaths noted here is since the beginning of the pandemic on March 1, 2020.

Deaths by Comorbidities

Note: Will not total 100%. Cases may have more than one comorbidity.

Post-Vaccine Breakthrough Cases by Week

The plot of Total Cases for Episode Date Week. Color shows details about Vaccination Status. The marks are labeled by % of Total Cases, excluding Partially Vaccinated Cases. The data is filtered on Episode Date Year, which keeps 2021.

Note: Case Vaccination Status determined by probabilistic matching of the immunization registry and case data, performed by the California Department of Public Health. Per the data provided by CDPH, the blue has been updated to only include Unvaccinated Cases. Partially Vaccinated Cases are not included in this data. Data through October 16, 2021. Updated every Friday.

- Around 80% of the cases in September were unvaccinated (excluding partially vaccinated cases).
- 1.02% of our County's fully vaccinated population are breakthrough cases. (This is not depicted in the graph above)

Post-Vaccine Breakthrough COVID-19 Related Deaths by Month

The plot of Total Deaths Due to COVID for Date of Death Month. Color shows details about Vaccination Status. The marks are labeled by % of Total Deaths Due to COVID, excluding Partially Vaccinated Cases. The data is filtered on Death Status, Date of Death Year, and COVID Death Status. The Death Status filter keeps Yes. The Date of Death Year filter keeps 2021. The COVID Death Status filter keeps Yes.

Note: Case Vaccination Status determined by probabilistic matching of the immunization registry and case data, performed by the California Department of Public Health. Per the data provided by CDPH, the blue has been updated to only include Unvaccinated Cases. Partially Vaccinated Cases are not included in this data. Data through October 16, 2021. Updated every Friday.

- **Over 90% of the COVID-19 related deaths in September were unvaccinated San Joaquin County residents (excluding partially vaccinated cases).**

Variants of Interest/Concern

Total Variants

Alpha (B.1.1.7)	185
Beta (B.1.351)	3

Total Hospitalizations and ICU Beds

Total Hospitalizations

93 COVID-19 hospitalized patients

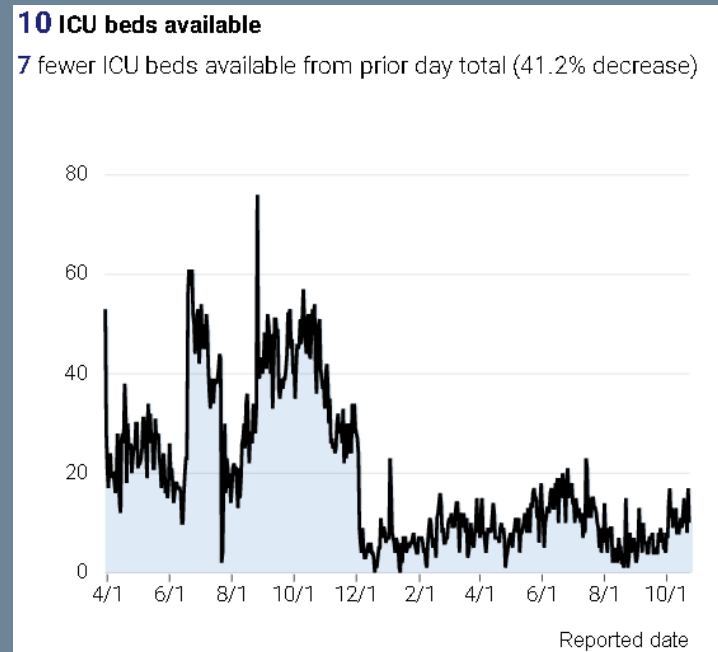

4 fewer patients hospitalized from prior day total (4.1% decrease)

ICU Beds Available

10 ICU beds available

7 fewer ICU beds available from prior day total (41.2% decrease)

Note: Includes the number of licensed ICU beds and hospitalized patients in San Joaquin County, regardless of residency. Licensed ICU bed totals count the number of beds that can be staffed to provide intensive healthcare. Directional change is compared to the prior day. Data is provided by the California Department of Public Health. The total number is since the beginning of the pandemic on March 1, 2020. Source: <https://covid19.ca.gov/state-dashboard/>

**Update Note: Due to weather-related issues, CDPH has not yet updated their data. This report has been updated with data from Sunday, October 24th, 2021.*

Testing and Positivity Rate

Tests Performed

1,505,167 total tests performed

3,529 new tests reported (0.2% increase)

Positivity Rate

4.3% test positivity (7-day rate)

0.3% decrease from 7-days prior

*Note: Testing date is the date the test was administered. Test positivity is based on a 7-day average with no lag. Directional change is compared to the prior 7-day period. Data is provided by the California Department of Public Health. The total number is since the beginning of the pandemic on March 1, 2020. Source: <https://covid19.ca.gov/state-dashboard/>
Update Note: Due to weather-related issues, CDPH has not yet updated their data. This report has been updated with data from Sunday, October 24th, 2021.

Outbreaks by Industry

- Suspect outbreaks are outbreaks that have been reported to PHS since July '21 and are currently under investigation to determine whether the report constitutes a confirmed outbreak.
 - Suspect outbreak numbers can vary over time as information is verified.
- The same site can have multiple suspected outbreaks occurring at the same time.
- Total outbreaks are outbreaks that have been confirmed since the beginning of the pandemic, March 1, 2020.

(refer to Definitions – Outbreaks for more info)

Vaccinations by Jurisdiction

Jurisdiction	Population	Total Vaccinations	Fully Vaccinated	% Fully Vaccinated	Partially Vaccinated	% Partially Vaccinated
Unincorporated	166,467	27,059	23,999	14.4	3,060	1.8
Escalon	6,104	6,387	5,710	93.5	677	11.1
Lathrop	18,226	17,694	16,018	87.9	1,676	9.2
Lodi	53,933	42,987	38,015	70.5	4,972	9.2
Manteca	65,240	54,652	49,053	75.2	5,599	8.6
Ripon	13,094	9,743	8,830	67.4	913	7.0
Stockton	252,326	212,862	184,490	73.1	28,372	11.2
Tracy	74,931	71,296	63,719	85.0	7,577	10.1
Unknown	<i>n/a</i>	1,483	1,031	<i>n/a</i>	452	<i>n/a</i>
Total	650,321	444,163	390,865	60.1	53,298	8.2

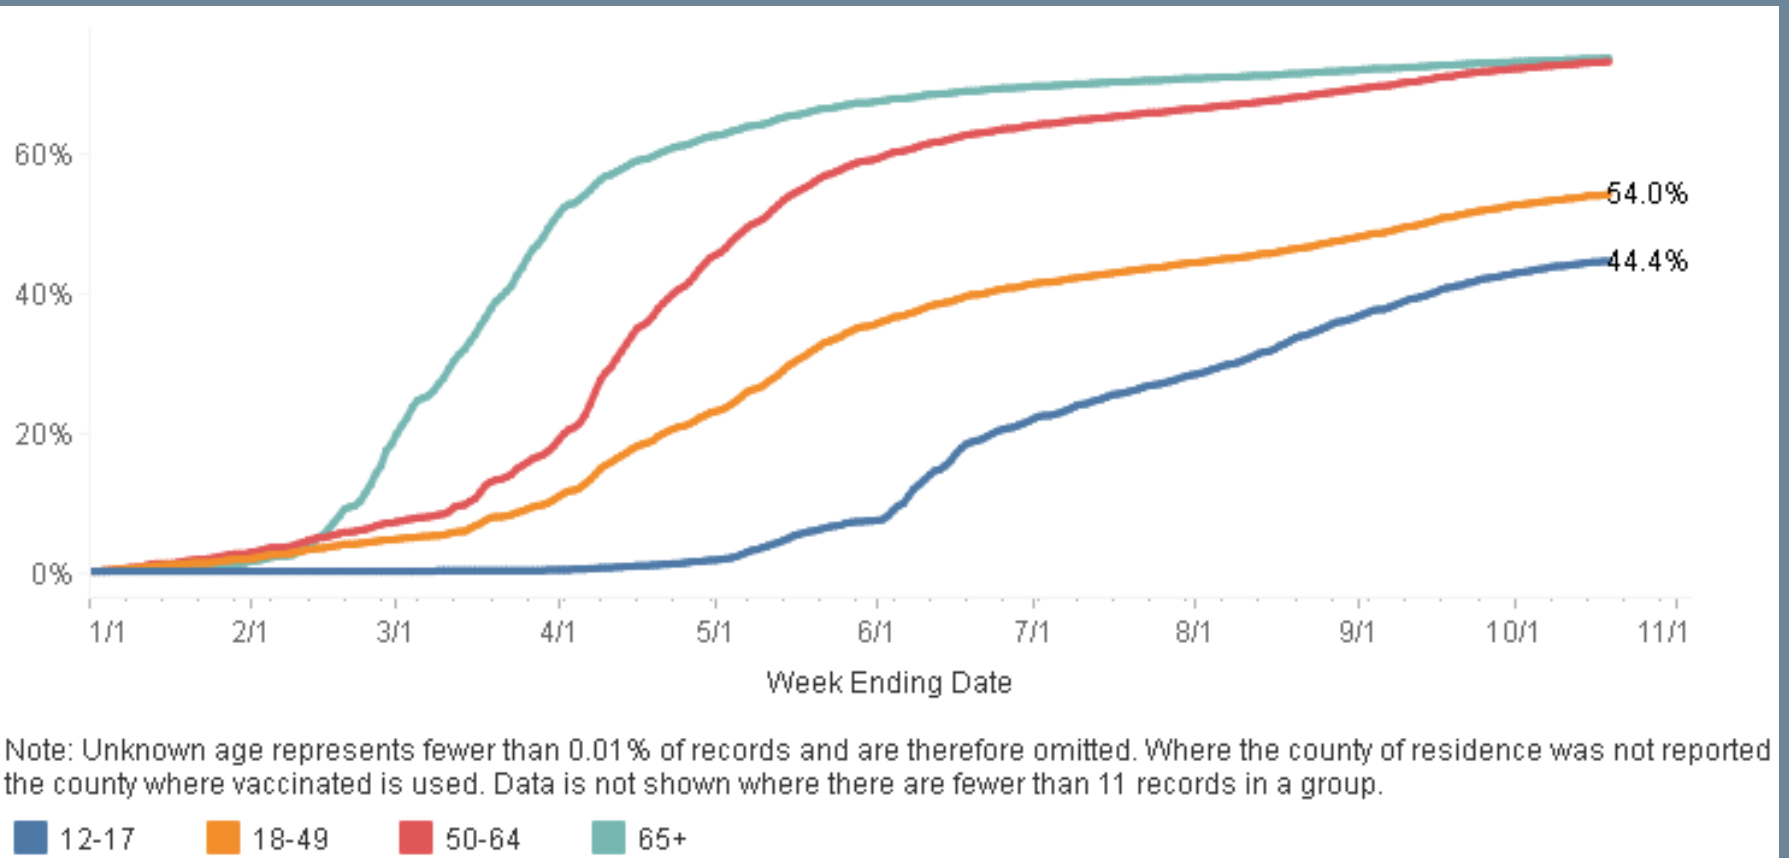

Note: Population estimates have been updated to 2021 DoF projections to be more consistent with State reporting. Population estimates are for individuals 12 years and older.

Vaccination Progress by Age Group

Note: Vaccination breakdowns are updated every Wednesday. Source: <https://covid19.ca.gov/vaccination-progress-data/#equitably-across-groups>

Fully Vaccinated Over Time by Age Group

Note: Vaccination breakdowns are updated every Wednesday. Source: <https://covid19.ca.gov/vaccination-progress-data/#equitably-across-groups>

Vaccination Progress by Race/Ethnicity

* More self-identified vaccine recipients in this category than the estimated eligible population

Note: Vaccination breakdowns are updated every Wednesday. Source: <https://covid19.ca.gov/vaccination-progress-data/#equitably-across-groups>

Fully Vaccinated Over Time by Race/Ethnicity

Note: Population estimates do not include "other" or "unknown" race and ethnicity categories, therefore their percentage of state population is not available. Some race/ethnicity groups in this county may have small populations. Where the county of residence was no reported, the county where vaccinated is used. Data is not shown where there are fewer than 11 records in a group.

Note: Vaccination breakdowns are updated every Wednesday. Source: <https://covid19.ca.gov/vaccination-progress-data/#equitably-across-groups>

Definitions – Cases, Deaths, and Positivity Rate

- Cases:
 - Confirmed: Detection of SARS-CoV-2 RNA in a clinical specimen (swab) using a molecular amplification detection test (PCR).
 - A patient is counted only once if they have multiple positive tests.
 - Not Counted: Antigen or antibody tests.
 - Episode date is the estimated earliest date of the case's illness.
- Deaths:
 - COVID-19 is listed as the leading cause of death or significant condition on the death certificate as per CDPH's definition. May be removed from the total once the final ICD-10 code is received.
 - There is a substantial delay in receiving notification of deaths. Totals by week will change as PHS receives information.
- Positivity Rate:
 - Positivity rate is calculated as the number of positive molecular tests divided by the total molecular tests performed.

Definitions - Outbreaks

- **Health Care Facilities:**

- Acute Hospital Facilities:
 - Patients: At least two lab confirmed COVID-19 in patients 7 days after admission for a non-COVID condition in which: (a) have a common source (i.e., unit and/or healthcare provider), (b) are not contacts to one another outside the facility, (c) are from different households.
 - Health Care Providers: 2-3 lab confirmed cases within two weeks in which (a) have a common source (i.e., unit), (b) are not contacts to one another outside the facility, (c) are from different households.
- Long-Term Care Facilities: At least one lab confirmed COVID-19 in a resident, that was acquired in the facility.

For more detailed information, refer to <https://www.cdph.ca.gov/Programs/CHCQ/LCP/Pages/AFL-20-75.aspx>

- **Non-Health Care Facilities:**

- Residential Congregate Settings (non-healthcare): At least three probable or confirmed cases (residents and/ or employees) within two weeks in which: (a) have common source and (b) are not identified as contacts to each other in any other case investigation.
 - Examples include dormitories, group homes, jails, prisons, shelters.
- Non-Residential Congregate Settings (non-healthcare): At least three probable or confirmed cases within two weeks in which: (a) have a common source, (b) are from different households, (c) are not identified as contacts to each other in any other case investigation.
 - Examples include workplaces, childcare facilities, schools, weddings, churches.

For more detailed information, refer to <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/OutbreakDefinitionandReportingGuidance.aspx>

Disclaimers

- Data are preliminary and subject to change as information is verified. Numbers do not represent true day-over-day changes as these results include cases from prior days. This information may not match other state websites due to differences in when the data was pulled, and the data sources used.
- Case/Death Counts by Jurisdiction and ZIP Code are processed through geocoding software to determine if they are found within the City Limits or ZIP Code boundaries. Cases without a known address, cases that are homeless, and cases with street addresses that cannot be accurately located are not included in the Case/Death Counts but are included in the County total.
- Variant cases: Do not represent the total number of variant infections. Positive COVID-19 samples are randomly selected and tested by CDPH and other labs. San Joaquin County Public Health Services does not control any aspect of the sampling completed by CDPH or other labs.
- Vaccinations: Population estimates are for individuals 12 years and older. The reporting of vaccine administration data into the immunization registries is consistently an under-count of actual number of doses administered locally, due to incomplete and delayed reporting into these systems. Providers that receive the vaccine are responsible for entering information into an immunization registry (Healthy Futures or CAIR2). Vaccine administration data is extracted from these registries. Administered doses are not counted if there is uncertainty regarding the county of residence. If the patient's address is missing, their administration site (i.e., Dameron) will be used as a proxy. May not include the following vaccinations of San Joaquin Residents: Individuals vaccinated but are not reported in California Immunization Registries or vaccinated at Federal facilities (VA, Prisons, Skilled Nursing Facilities).
- For “>99.9%” values: These values should be interpreted with caution as they may result from numerator-denominator mismatches for the following reasons: 1) Population projections are estimates and thus have a margin of error; this error can result in >99.9% values particularly for small populations. 2) Individuals identifying with race/ethnic groups outside of Federal Office of Management and Budget (OMB) classifications may cause those groups to exceed 99.9% (e.g. Asian ethnicities identifying as NHPI). 3) Metrics for small populations may be disproportionately affected by geocoding errors or non-resident individuals.
