CHDP Updates

PM 160 Changes and Updates

As of July 1, 2017, the Department of Health Care Services (DHCS) is discontinuing the PM 160 for the majority of fee for service providers. However, Federally Qualified Health Centers (FQHCs) will still use the brown PM 160 for billing purposes. It should be submitted as an attachment with the X12N 837I/UB-04 outpatient claim form OR as an electronic Computer Media Claim (CMC) until further notice.

Providers are encouraged to look for CHDP updates in the *NewsFlash* area on the Medi-Cal website and subscribe to the Medi-Cal Subscription Service (MCSS). To sign up for MCSS, go to the following link, enter your information, and check the box labeled CHDP Gateway to Health Coverage: <http://files.medi-cal.ca.gov/publsdoco/mcss/mcss.asp>.

Specific questions about the transition can be directed to the CHDPTransition@conduent.com mailbox.

Foster Care Universal Health Form

The Health Care Program for Children in Foster Care (HCPCFC) in San Joaquin County (SJC) is using a universal health form for all foster children when they see a doctor. It is essential for providers to use this form to document all visits with foster children.

Foster parents should bring a copy of the universal health form to the appointment with the top section filled out. **Once the form is completed with the results of the child's visit, please either fax directly to the Foster Care nurses at 209-932-2638 or return to the foster parent before they leave.**

If you have additional questions, please call Pam Lam at 209-468-1408. See **Attachment A** for an example.

Next Audiometric Screening Training

Date: Thursday, August 31, 2017

Time: 8:30am

Location: 1601 E. Hazelton Ave,
Stockton, 95205, Multi-Purpose
Room

Contact: Gwen Callaway,
209-468-8918 or
gcallaway@sjcphs.org

Look for registration information in mid-July. Register early—seating is limited. Participants **must** bring their office's audiometer. Staff who perform audiometric screenings on CHDP children must be certified every 4 years.

Kids Corner

Summer Heat Safety

With summer in full swing be sure to follow these tips from the American Academy of Pediatrics (AAP) for keeping children safe and cool during hot weather.

- Never leave children unattended in a car
- Make sure children stay hydrated and drink water even when not thirsty
- Cool down with cool showers or baths
- Always use sunscreen with at least SPF 15
- Reapply sunscreen every one and half to two hours
- Have the child wear a hat with a wide brim, sunglasses, and light colored clothing
- Avoid sun exposure during the peak hours of 10am to 4pm
- Keep babies under 6 months old out of direct sunlight

For more information see the AAP website: <https://www.aap.org/en-us/about-the-aap/aap-press-room/news-features-and-safety-tips/pages/sun-and-water-safety-tips.aspx>

PHS Program Spotlight Series: CCS

California Children's Services (CCS) is a statewide program that helps children with certain diseases, physical limitations, or chronic health problems. Case management services are provided to assist with the child's medical needs.

To be eligible for CCS a child must be under 21 years old, be a resident of California, have a qualifying medical condition, and have full-scope Medi-Cal or family income less than \$40,000. If the family's income is more than \$40,000, a child may still be eligible if their medical expenses are expected to be more than 20% of the family's yearly income.

If a child is eligible for CCS, the program authorizes payment for services like doctor visits, hospital stays, surgery, lab tests, X-rays, orthopedic appliances, and/or conducts physical and occupational therapy through the Medical Therapy Program (MTP).

Anyone can fill out an application for CCS which can be found here: <http://www.dhcs.ca.gov/formsandpubs/forms/Forms/ChildMedSvcForms/dhcs4480.pdf>. Providers can also refer children for CCS services. That form can be found here: <http://www.dhcs.ca.gov/formsandpubs/forms/Forms/ChildMedSvcForms/dhcs4488.pdf>.

CCS accepts applications and referrals through the following channels.

Public Health News

New Sources of Lead

San Joaquin County has seen an increase in the number of lead cases involving recent immigrants from Afghanistan. The source of lead is often home remedies and spices that are obtained overseas. Several of the most common products to look for are:

- **Surma:** a widely used cosmetic
- **Kurut:** dried yogurt
- **Zachoba:** another name for turmeric, also used for medicinal purposes
- **Goty:** used to relieve stomach indigestion and gas
- **Zagafel:** stomach ache remedy
- **Espend:** for fussy babies, burned directly on the stove

For more information about potential sources of lead, please contact the CHDP Program at 209-468-8335.

Remove Standing Water!

The California Department of Public Health (CDPH) urges all residents to remove standing water from their homes and businesses to help reduce mosquito populations and prevent mosquito-borne diseases like Zika and West Nile Virus (WNV).

Pregnant women should be particularly cautious of Zika as infection could cause miscarriage, stillbirth, or severe birth defects. The elderly are most susceptible to WNV which can cause fever, headache, nausea, rash, and even death.

Everyone should take precautions against mosquito bites by consistently using mosquito repellent, wearing long sleeves and pants, using air conditioning, and using window screens.

The full news release can be found here: <https://www.cdph.ca.gov/Programs/OPA/Pages/NR17-046.aspx>

CDC Shigella Health Advisory

Shigella is a bacteria that causes stomach pain and cramps, diarrhea that is often bloody, and fever. It is more common in the summer months and is most often seen in children ages 2-4 years old.

The Centers for Disease Control and Prevention (CDC) has identified strains of *Shigella* that may have reduced susceptibility to the class of drugs primarily used to treat them. In 2016, there were 78 cases of *Shigella* in San Joaquin County. So far, there have not been any reported cases of the new, resistant type of *Shigella* in 2017.

For information on diagnosis and management of *Shigella* infections, the CDC's report can be found here: <https://emergency.cdc.gov/han/han00401.asp>.

Check the Label!

The Food and Drug Administration (FDA) has added a strengthened Warning to moms that states **breast-feeding is not recommended while taking medications that contain codeine or tramadol**. There are risks to infants including excess sleepiness, difficulty breastfeeding, or serious breathing problems.

If a child has been exposed to codeine or tramadol look for signs of breathing problems like slow or shallow breathing, difficult or noisy breathing, confusion, or limpness.

For the entire report see the FDA's Drug Safety Communication which can be found at the following website: <https://www.fda.gov/Drugs/DrugSafety/ucm549679.htm>

Resources

First 5 Kit for New Parents

First 5 has free kits for new parents. All kits contain materials on early development, advice for new parents, and a book for baby. The kits are available in multiple languages and the English and Spanish kits include infant oral health supplies. Kits can be delivered to provider offices. See **Attachment B** for the order form. For more information call 209-953-5437 or email sjckids@sjgov.org.

Change the Way You Talk

ChangeTalk is a free app and a web-based learning program that teaches health care providers **how to have difficult conversations with patients about childhood obesity**. Developed by the AAP Institute for Healthy Childhood Weight and Kognito, the program uses motivational interviewing to help bring about healthy behavior change.

The app is available for iPhone and Android. The web module can be accessed at the following site:

<https://ihcw.aap.org/resources/Pages/default.aspx>.

Family Day at the Park

Stockton's annual Family Day at the Park will take place on **September 16, 2017 from 9:30am—2:30pm**. Come out to University Park and celebrate children's literacy and education with this free, family-fun event! Mark your calendars!

For more information visit their website: <http://www.familydayatthepark.com/>

National Preparedness Month

September is National Preparedness Month and this year's themes are Children, Pets, and Emergency Preparedness. Educational materials and informative videos can be found here: <http://www.sjcphs.org/emprep/VideoResources.aspx> and here: <http://www.sjcphs.org/emprep/emprep.aspx>.

For more information, contact Kathleen Conley, PHS Emergency Preparedness Coordinator, at 209-468-9361 or kconley@sjcphs.org.

New Clinic Services

San Joaquin County Clinics has a new primary care clinic located at 1601 E. Hazelton Avenue, Stockton 95205. Medi-Cal is accepted and financial assistance is available. New patients are welcome by walk-in or appointment. Available services include:

- Cold and Flu Treatment
- Immunizations
- Physicals
- Well-Child Exams
- Pregnancy Tests
- STD Services
- Diabetes Management
- Blood Pressure Maintenance
- Family Planning

To make an appointment call 209-468-6820.
